## Simple, Fully Integrated Backup and Recovery

Deploy the Unitrends all-in-one backup and continuity solution in your data center as an all-in-one integrated physical appliance or fully integrated software running on your hardware. Extend to the cloud by using Unitrends purpose-built Forever Cloud or the hyperscale public cloud of your choice. Manage your entire environment by using the Unitrends intuitive common dashboard.

## Universal Protection

Support for your unique mix of data center and cloud assets. Provides protection for 250+ versions of operating systems, hypervisors, and applications. Unitrends is the only vendor with backup, instant recovery, and 100% recovery assurance for physical, virtual, and cloud workloads

## The Industry's Broadest Portfolio of Cloud Options

Get long term data retention, cloud storage, and disaster recovery services in the Unitrends Cloud or by integrating with 3rd-party hyperscale clouds including Amazon Web Services (AWS) and Microsoft Azure.

## Cloud-Empowered Disaster Recovery and Business Continuity

Unitrends Disaster Recovery as a Service (DRaaS) bolsters BC/DR readiness by providing rapid spin-up in the cloud for business critical servers, providing you with white-glove service and the only vendor to offer a guaranteed 1-hour SLA available for your most crucial systems. Automated testing is available to certify that RPOs and RTOs are achieved.
